WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

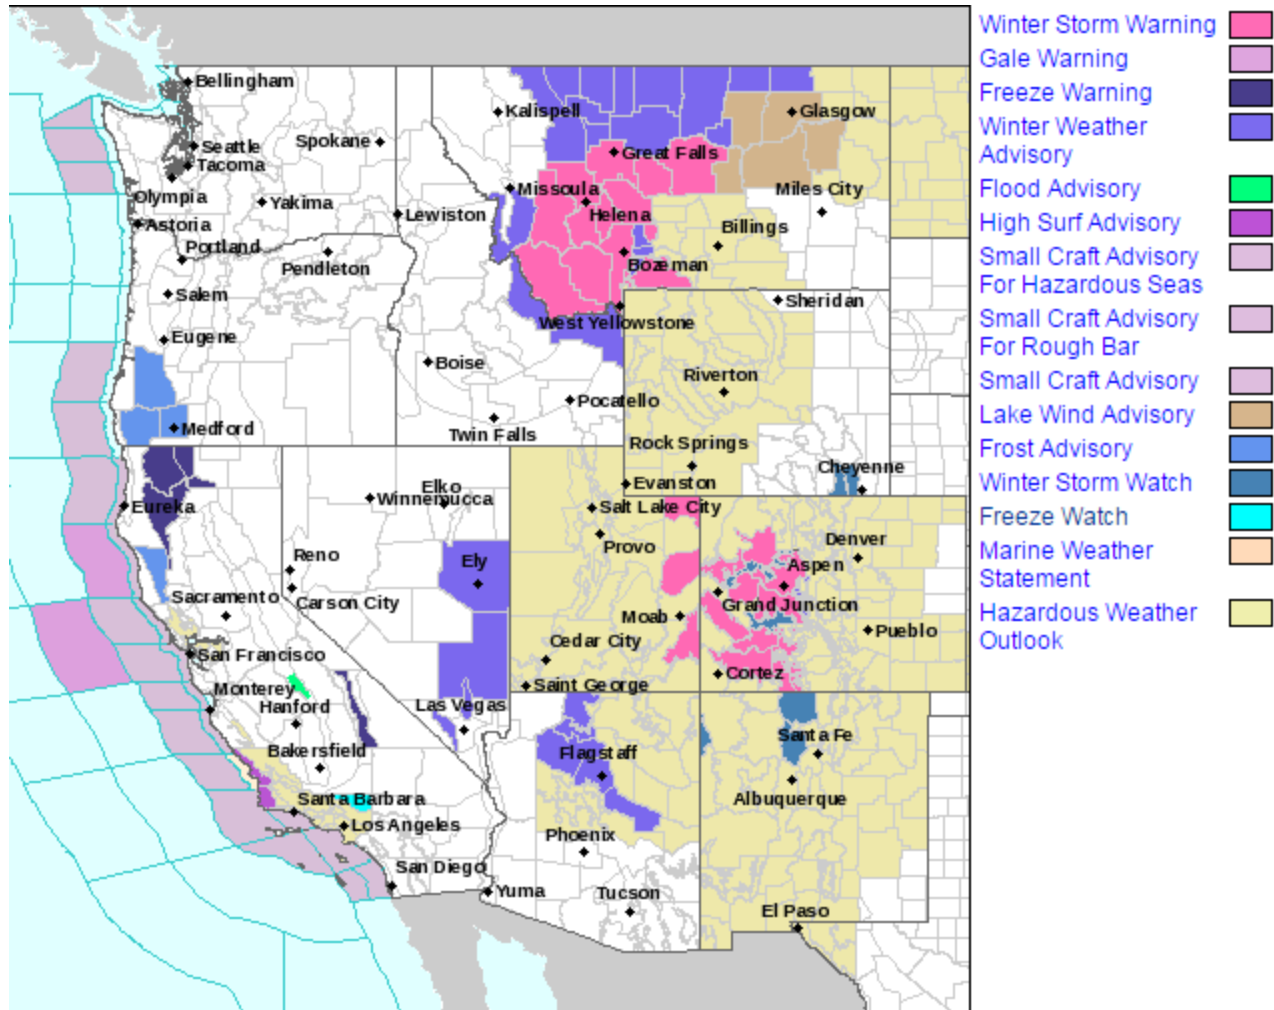

The weather system passing through the region during the past few days has almost moved out of California. Some cloudiness and possibly a few showers will be lingering over the northern and eastern mountains today, otherwise, mostly sunny conditions will prevail. A dry northerly flow will be over the region as higher pressure takes over the weather pattern for today and Wednesday. Thursday a weak trough will roll through Northern California with some cloudiness, cooler temperatures and perhaps some showers near the Oregon border. A high pressure ridge returns Friday for warmer, drier conditions. Saturday will be mostly sunny, warm and dry as well, but another weather system will be approaching the coast during the day. Saturday night that system is expected to move ashore then through Northern California Sunday and Monday with seasonably cool temperatures and some light precipitation mainly for the coastal and mountain areas. Gusty NW to N winds will be in place for many areas today into Wednesday. Much of the Sacramento Valley in particular will develop wind speeds of 10-20 mph with gusts of 25-35 mph. However, even though these winds will have significant drying power, the amount of moisture from the weather system and fairly cool temperatures will keep things from drying too rapidly.

SOUTHERN CALIFORNIA

The season's first significant winter-type storm system has brought widespread rain and high elevation snow to much of Sierras. Rainfall totals were well over an inch and a half north of Kern County with nearly 3 inches of precipitation falling in the central Sierras. Across Southern California, rainfall amounts were generally under a half inch. The system responsible for the rainfall will continue to lift into the Great Basin today. Additional rainfall will be possible today in the form of brief heavy showers, mainly near the higher terrain. The Sierras may see another half inch of rain with much of the rain falling on the east side of the Crest. A tenth of an inch or so will be possible across the rest of the district. It will turn windy in the deserts today and the adjacent mountains where west winds of 20-30 mph with gusts to 50 mph are expected. High temperatures will be 5-10 degrees below normal with highs in the 40s in the mountains to around 70 in the valleys. A handful of showers will be possible again Wednesday in the Sierras and eastern deserts while the rest of the area sees sunny skies and slightly warmer temperatures. The rest of the week into the weekend will see a warming trend, especially across the coastal areas as light offshore flow develops. Wind speeds will remain very light, but temperatures may reach the lower 80s in the valleys by Saturday. A weak system may bring light rain to Central California with cooler weather returning to the rest of the region. No strong offshore winds are expected through the period.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 62 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 28 Counties: Butte, Colusa, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
